Education

Indian Institute of Engineering Science and Technology, Shibpur 2023 – Present
B.Tech in Information Technology *CGPA: 7.28/10*

Board of Intermediate Education, Andhra Pradesh 2023
Intermediate *Percentage: 91.2%*

Board of Secondary Education, Andhra Pradesh 2021
Secondary *Percentage: 94.8%*

Experience

Artificial Intelligence Intern – Infosys Springboard Oct 2025 – Dec 2025
Remote Internship *Github— Certificate*

- Developed an AI-powered coding assistant using **Streamlit** and **Ollama (Qwen 2.5 Coder)** for interactive code generation and debugging.
- Engineered application-level responsiveness using **Streamlit Session State** to manage dynamic UI updates, conversation flow, and user interactions.
- Implemented **real-time chat streaming**, **OCR-based document processing**, and **voice input** to enhance usability.
- Designed a **modular architecture** and optimized execution using caching to improve maintainability and runtime efficiency.

Web Designing Intern - SUG Creative May 2023 – June 2023
Remote Internship *Certificate*

- Worked with Figma, Wix, WordPress, and SEO tools to design and optimize responsive websites.

Projects

Primitive Polynomials and their Algorithms | *C++, Canva, LaTeX, MS Word, SageMath* Github

- Developed algorithms in C++ and SageMath to generate and verify primitive polynomials over GF(2).
- Explored cellular automata-based techniques to enhance generation quality and reduce false primitives, focusing on matrix size and bit placement strategies.

CareCompanion AI (UI/UX Design Project) | *Figma, Stitch* Github

- Designed a patient-focused health assistance system in Figma that educates users about their medical reports with AI-driven explanations, summaries, and recommended resources (YouTube videos, FAQs).
- Aimed to empower patients to never miss recovery opportunities by providing clear insights, predictions (diabetes, heart issues, sugar level risks), and nearby hospital suggestions through an intuitive UI/UX design.

Technical Skills

Languages: C, C++, SQL, Python, JavaScript
Frontend: HTML, CSS, Bootstrap
Frameworks: C++ (STL), WordPress, Streamlit
Developer Tools: Git, Google Cloud Platform, VS Code, GitHub, Jupyter notebook

Certifications

Introduction to Natural Language Processing
Infosys Springboard *Certificate*
